

**THIS DOCUMENT IS MADE FOR HELPING YOU FIND THE CORRECT SIZE OF THE “NARCIS DANCE FREE” BALLET SHOES.**

Following the european size system of shoes, we offer six unisex sizes for the N6 and N7 models:

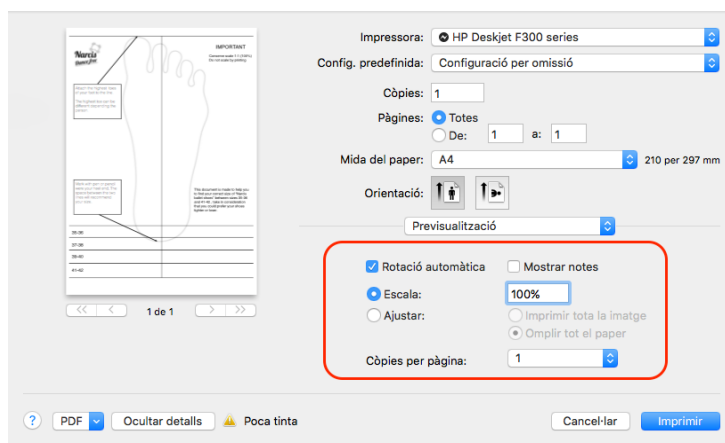

35-36	37-38	39-40	41-42	43-44	45-46
-------	-------	-------	-------	-------	-------

If you would like to know the size conversion to other systems, there are different converters that can be consulted in the internet like the following one: <https://www.convertworld.com/en/shoe-size/europe.html>

**The sizes can turn out slightly different between countries or shoe brands, due to this fact, we suggest you to check with our own “size meter” attached at the end of this document. It will be necessary to print the template below and follow the instructions for a correct use.**

**IMPORTANT:**

**The scale of the document must be maintained to the 100% (scale 1:1)  
It is possible that your printer might try to modify the size.**

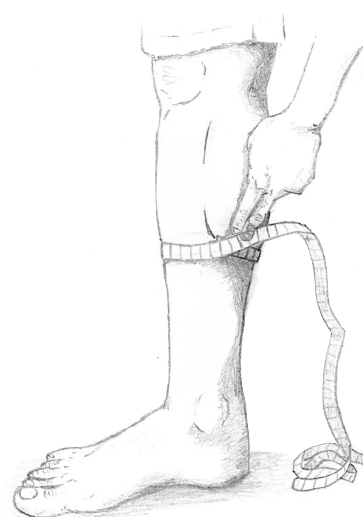

**In the N7 model,** besides having to specify the size, it is necessary also to select the size of the neck, S or M.

In order to determine which is your size, we recommend you to use measuring tape to measure the contour of the leg just below the calf muscle as the image indicates.

The following table recommends your selection:

Contour of the leg	Size of the neck
Less than 25 cm	S
More than 25 cm	M

Place the largest toe of your foot to the line.

The largest toe can be different depending on the person.

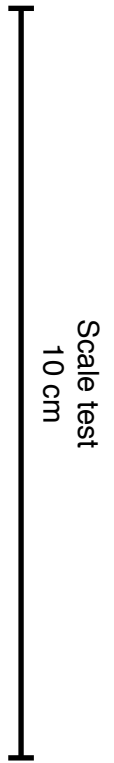

Mark with pen or pencil where your heel end. The space between the two lines will recommend your size.

Centimeters

**IMPORTANT**

Do not scale when printing  
Conserve scale 1:1 (100%)

Please, measure the "scale test" to verify the correct page dimensions

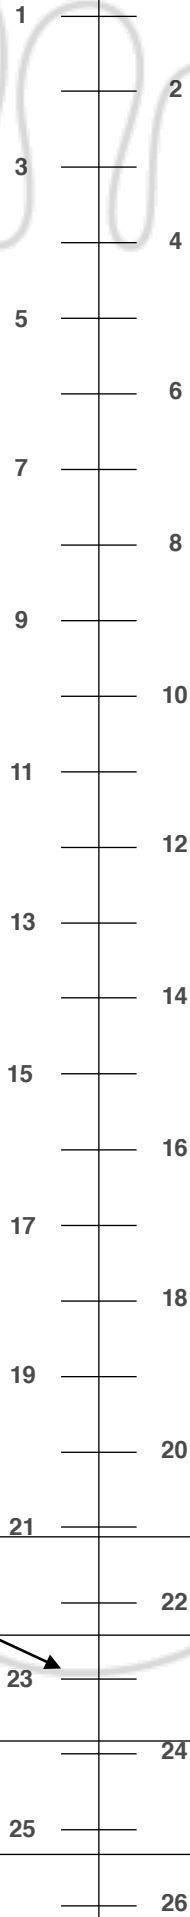

35-36

37-38

39-40

41-42

This document is made to help you find your correct size of "Narcis ballet shoes" between sizes 35-36 and 41-42 , take into consideration that you could prefer your shoes tighter or loser.
